APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 10791 is issued subject to the terms and conditions imposed in said Permit 10791. A meter must be installed in the discharge pipe line, near the point of diversion, and accurate measurements must be kept of water placed to beneficial use. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening and an air line for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore the State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.5 cubic feet per second.

Actual construction work shall begin on or before October 7, 1966

Proof of commencement of work shall be filed before November 7, 1966

Work must be prosecuted with reasonable diligence and be completed on or before October 7, 1967

Proof of completion of work shall be filed before November 7, 1967

Application of water to beneficial use shall be made on or before October 7, 1968

Proof of the application of water to beneficial use shall be filed on or before November 7, 1968

Map in support of proof of beneficial use shall be filed on or before
